

Cool scandinavian loudspeakers

We love music

SA is the only loudspeaker brand that is founded by a musician.

Ole Witthøft played in a band and was disappointed that no speakers on the market were able to reproduce the music in a natural way.

When he built his own speakers, a baffled press wrote, "This speaker sets new standards."

It was in 1984.

Ole Witthøft then opened his own Hi-Fi store. The idea was for customers to use their ears and choose the speakers that sounded the best.

The store had a listening room that was decorated as a regular living room with books, furniture and plants, etc.

The spirit of the store lives on today.

We believe you should explore the sound to find the best speakers for your home.

System Audio is a multi-award winning loudspeaker brand.

We have been awarded internationally more than 150 times for our technology, sound, design and innovation.

We are here to help.

A stylized, handwritten signature of Ole Witthøft in black ink.

Ole Witthøft

SA legend silverback family

Real progress

SA legend 60 silverback has a frequency response down to 17 Hz, 4 built-in digital amplifiers, digital lossless crossover and special designed speaker elements in a technological league for itself. Enjoy your music more present and vibrant than ever before.

Innovative

SA legend 40 silverback is a truly musical speaker. It has 4 built-in digital amplifiers with a total output of 300 Watts. The frequency response is extremely linear and ranges down to 20 Hz. It has a digital and lossless crossover and built-in DSP.

Stereo Hub

Connection point for audio devices such as your turntable, TV, smartphone, computer, CD etc.

Stereo Hub has built-in Chromecast, Airplay, Bluetooth, Spotify Connect, analog and digital inputs, as well as HDMI.

Transmits the audio wirelessly to Silverback speakers using High Definition WiSA technology.

Flexible

SA legend 10 silverback is a powerful speaker with 3 built-in digital amplifiers, digital lossless crossover and DSP. It easily takes any place in a home theater or music system to let you enjoy its clean and effortless sound.

Modern

SA legend 7 silverback is only 14 cm deep and it takes sound from wall speakers to a new level. It has 3 built-in digital amplifiers, a digital lossless crossover and DSP. It can be used vertically and horizontally. Front grilles for both applications are included. Built-in wall brackets.

Convincing

SA legend 5 silverback is an active compact speaker with a surprising big and musical sound. It has two built-in digital amplifiers with a total power of 150 Watts, digital lossless crossovers and DSP.

This is innovation for music lovers

SA legend silverback is a unique family of active speakers with High Definition sound.

Connect them to the preamp of your music system. Use them wirelessly together with Stereo Hub or a similar WiSA transmitter.

Each speaker has 2-4 built-in digital amplifiers of up to 560 Watts, lossless digital active crossovers, digital signal processor (DSP) and is ready for use in a wireless home theater with up to 7.1 channels of uncompressed audio in 24/96 High Definition resolution.

Powerful

SA legend 60 is a sophisticated and involving speaker. Any music form is conveyed with power and finesse. The special drive units are developed from its predecessor: SA pandion. Can be upgraded to the fully active SA legend 60 silverback.

Engaging

SA legend 40 looks smaller than it sounds. Your eyes see a floor speaker that fits in everywhere and your ears hear a performance of a much larger speaker. Everything is specially designed by SA. Can be upgraded to the fully active SA legend 40 silverback.

Extreme energy

SA legend sub 12 is the most powerful active subwoofer we have ever built.

It is made for the SA legend family but it works well with any other speaker that needs bass of the highest quality.

Dynamic

SA legend 10 is a universal speaker that can take any place in a music system or home theater.

It will delight its users with an extreme musicality. Can be upgraded to the fully active SA legend 10 silverback.

Future-proof

SA legend 7 is only 14 cm deep and built to hang on the wall. Use it in your music system or home theater and enjoy its amazing clean sound and musicality. Wall brackets are built-in. Can be upgraded to the fully active SA legend 7 silverback.

Life-like

SA legend 5 is a compact speaker that delivers big sound. Every component is designed by SA and gives the speaker exceptional durability and musical finesse. Can be upgraded to the fully active SA legend 5 silverback.

Built of the best we've got

The speakers in the SA legend family are based on System Audio's many years of experience in high-quality speakers.

All components are specially designed.

SA legend is created for high performance music systems and home theaters and are the only speakers on the market that can be upgraded from passive to active whenever you want.

In the upgraded version, the speakers are called SA legend silverback. See the opposite page.

SA saxo family

Entertaining

SA saxo 60 does something amazing with music. It takes it off the stage and into the present moment in your living room. When you want, SA saxo 60 will play as loud as you ever want.

Powerful

SA saxo 50 delivers amazing sound to the economically conscious music lover. A slim floor speaker that easily fits in everywhere. Experience the nuances of the sound. Enjoy a speaker that will bring music to any home party when you want it to.

Unconventional

SA saxo 40 is a floor speaker in a new format. It is smaller than a regular floor speaker, but the sound is big thanks to a whole new type of woofer that does not require a large cabinet and our tweeter with the DTX acoustic lens.

Unique

SA saxo 16 fits in and the sound stands out. With a physical depth of just 10.5 cm it fits in everywhere. Delivered with two front grilles, so you can choose whether the speaker should hang horizontally or vertically.

Made for everyone

SA saxo is a family of speakers for the economically conscious music and movie lover.

You can hear everything from rock, pop, classical and jazz. You may prefer vinyl, streaming and much more.

The SA saxo speakers are designed to bring out the greatest possible listening pleasure in your music and films.

All you need to do is discover which model is best for you.

Better

SA saxo 10 gives you big sound, elegant design and a top quality finish. Use it in your music system or home theater. Each speaker comes with two front grilles, so you can choose to place it horizontally or vertically. Prepared for wall bracket W.5.

SA saxo active family

Total solution

SA saxo 7 active is your entire music system. Inside the beautifully crafted cabinets it has built-in amplifiers and electronics that will connect to your smartphone, tablet, turntable, TV, etc. Prepared for W.5 wall brackets.

All-in-one

SA saxo 3 active is all you need as a music lover. The speakers are a complete music system with big sound and wireless connection to your smartphone. Can be easily connected to TV, turntable etc. Prepared for the W.5 wall bracket.

Tasteful

SA saxo 6 has the size of a piece of A4 paper when you see it from the front. As a wall speaker with a depth of just 10.5 cm, it finds its way to places where ordinary speakers can't go. Delivered with two front grilles. You choose whether to hang horizontally or vertically.

Musical

SA saxo 5 is a charming loudspeaker. It creates music experiences in a present and life-like way. You will hardly find a speaker with more personality than this. Prepared for the W.5 wall bracket.

Classic

SA saxo 1 is only 25 cm tall and 13 cm wide. Yet you will be surprised by its big sound. It is the market's best mini-speaker. Prepared for WB2 and W.5 wall brackets.

Power house

SA saxo sub 10 takes you far when you want to experience the energy and depth in your music and movies. Use it with any speaker in the saxo family.
